

MANUFACTURER & EXPORTER OF BOPP SELF-ADHESIVE TAPES

Worldtech Industries:

WorldTech Industries Pvt. Ltd., synonymous to its name has the largest **BOPP Self Adhesive Tapes** production at a single location at Santej, near Ahmedabad, Gujarat ,India with latest technology & state-of-the-art manufacturing facilities to ensure quality products of the highest standards.

The versatility and adhesive uniqueness of BOPP Self Adhesive Tape has made it a necessity for the Global Market. The US is the largest market for Self Adhesive, Packaging and Carton Sealing Tapes, accounting for 20 per cent of global demand.

To cater to this ever expanding demand and needs of the Packaging Industry based on our wide experience in the production of BOPP Self Adhesive Tape and system solutions, we have initiated - **Worldtech Industries Pvt. Ltd.** , to deliver complete customer satisfaction in the Worldwide.

True to the vision of **Mr. Mahesh Patel**, a young generation dynamic entrepreneur, of being the best in the industry, to have chosen the motto of '**Superior Quality at Supremely Affordable**' prices, thereby delivering complete customer satisfaction worldwide

BOPP Self Adhesive Tapes manufactured by WorldTech Industries Pvt. Ltd., using the best of technology are superior in quality and have extended UV resistance, extended temperature resistance, deep drawing and thermoforming properties, they are hypo allergenic, non-irritant and have excellent adhesive properties, containing no solvent so as to cause injury to the products' surface.

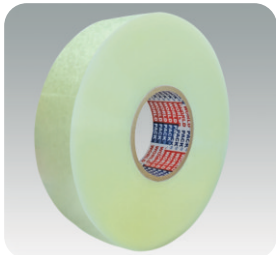

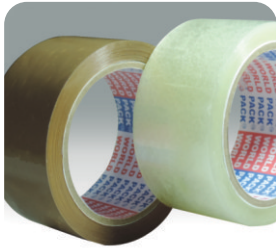

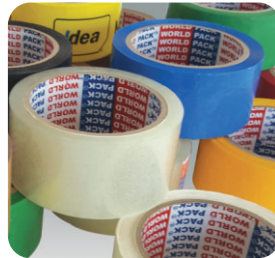

Our Global Presence:

With wide experience in coating technology and development of BOPP Self Adhesive Tape and innovative product solutions, we have Global Presence & Distributor Bases in Countries like - **USA, UK, Germany, France, Italy, Brazil, Kenya, UAE, Poland, Saudi Arabia, Spain, Netherlands, Mexico, South Africa, Canada, Rwanda, Tanzania, Portugal & Congo.**

Worldpack Customized Packaging Solutions:

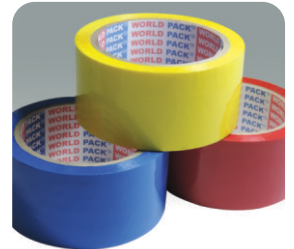

The continuous development and up gradation of our plant facilities, highlight WorldPack for it's technologically advanced and highly innovative packaging solutions.

WORLDPACK

BOPP Self Adhesive Tapes

- ★ Super tack and adhesion to surface
- ★ Unique processing for consistent quality
- ★ Uniform coating process
- ★ Assured and marked tape length
- ★ Durable with a strong shelf life
- ★ High performance even under extreme pressure and temperature conditions
- ★ Custom printed in a range of colors
- ★ Great elastic & viscous characteristics

Providing Highest Quality Standards for the World:

Our Top Quality Products are based on advanced test equipments, professional test staff accurate testing data and rigorous testing attitude to meet any demands of our Customers.

Our Company owns several sets of internationally advanced high speed coating lines. Each batch of glue has to pass through stringent inspections: such as initial adhesion, lasting adhesion, peeling strength, rotational viscosity, pH value, anti-aging, solid content and molecular structure. Modernized high-speed automatic slitting machines for no bubble tapes making and automatic cutting machines.

International advanced manufacturing & fully automatic sleek packing machines (Tower & Flat Packaging) ensure the stability and excellent quality of our Products.

Our BOPP Self Adhesive Tapes has become Worlds # 1 for quality packaging due to its high performance based on a special feature: Viscoelasticity. Viscoelasticity describes a material performance which is defined by both elastic and viscous characteristics.

Viscoelasticity describes a material performance which is defined by both elastic and viscous characteristics. The elastic restoring forces provides inner strength while the viscous part of the material leads to relaxation of mechanical stresses. The BOPP Self Adhesive Tape employs a special Acrylic System (water based) that combines both effects in an outstanding manner and at the same time the adhesive bond is dimensionally stable and permanent. This results in a superior bond that resists temperature, weather, UV & chemical influence to last for decades.

WORLDTECH BOPP Self Adhesive Tapes

We manufacture a wide range of high quality BOPP Self Adhesive Tapes. Our BOPP Tapes are used by all leading Indian and International Companies. Manufactured in state-of-the-art Unit, they are strong, have superb adhesion and can withstand extremes of temperature & pressure. They have been designed to provide complete protection to packages during transit and handling. They are ideal for use in automatic packing machines, and are tamper-proof with availability in a variety of colors, thickness, roll strengths and roll widths.

BOPP Self Adhesive Tapes are extremely popular with the Packaging Industry worldwide due to their unique characteristics.

“

As a leading provider of BOPP Self Adhesive Tapes, which are environmentally friendly, highly recyclable and food safe, we are aware of our responsibility for people and the environment. Our prime aim is to protect ecological resources and thereby have a sustainable impact worldwide.
